

## Info Kiosk

**Area of Usage**  
**POLYCLINIC**

# R-419

CUREVISION Kiosk is a complete and sophisticated system supporting Queue Management and Self Service Operations. It can be integrated with one-dimensional and two-dimensional barcode readers and hardware platforms such as Magstripe, Contact Chip, RFID, and Memory Card readers. Additionally, it has a built-in thermal printer that can produce queue slips and tickets.

With a front cover design, it is easier to service and replace paper, as you do not need to open a cover behind it, and it takes up less space. In addition, the kiosk screen is protected against liquid contact.

Creating a stylish and ergonomic design, which can be customized with your company's logo and colour, will be appreciated by your clients and give your business a sense of prestige.

## Features

- High Resolution 16: 9 Wide Format Upright LCD Display with 21" / 19" / 17" Screen Options
- Capacitive Touch Technology Resistant to Break and Scratch
- Fanless Intel® Celeron™ Processor, Industrial Motherboard
- OmniDirectional Internal Barcode and QRCode Reader
- 2.4" Thermal Receipt Printer With Long Life, Auto Cutter
- Contactless and Contact Smart Card Reader
- Space-saving, Front Cover, Easy Service and Paper Exchange Opportunity
- Vandal Resistant Body
