PATIENT ROOM
—
INTENSIVE CARE
—
POLYCLINIC

ORW10

The CureVision ORW10 is a modern, space-saving integrated workstation designed to meet the demands of healthcare professionals, laboratory technicians, and dynamic office environments. With its ergonomic sit-stand mechanism, compact wall-mounted design, and hygienic construction, it transforms how professionals work in fast-paced, space-constrained settings.

Features

- **Ergonomic Sit-Stand Design:** Height-adjustable, multi-directional arm structure that allows effortless switching between sitting and standing positions.
- **All-in-One Integrated Workstation:** Combines monitor, keyboard, and mouse tray into a unified, wall-mounted solution for efficient task handling.
- **Wall-Mounted Articulating Arm:** Fixed, space-saving installation with flexible positioning to fit tight clinical or office layouts.
- **Smart Cable Management:** Built-in channels and compartments ensure clean, tangle-free wiring for easier maintenance and better hygiene.
- **Durable Construction:** High-strength metal alloy frame with reinforced hinges designed for daily use in busy environments.
- **Hygienic Surface Finishes:** Flat, non-porous surfaces that are easy to disinfect, meeting hygiene requirements in medical and laboratory use.
- **Versatile Deployment:** Suitable for hospitals, labs, pharmacies, clinics, and even corporate spaces needing clean, organized digital stations.
- **Modern and Compact Aesthetic:** Sleek, minimalist profile that complements contemporary architectural and interior designs.
